

## THE HENNING LARSEN FOUNDATION

---

The Henning Larsen Foundation was first established in 2001 based on Henning Larsen's private funds. The purpose of the Foundation is to promote and disseminate Danish architecture in a broad sense, and each year on the founder's birthday on 20 August, one or more grants are awarded.

A number of young Danish architects have been awarded grants. In 2007 and 2008, the Foundation organised international competitions in the fields of architectural photography and architectural drawing.

The objective of the non-profit and charitable Foundation is to support Danish architecture, e.g. through further training; travelling grants; exhibition activities; publication of books on architecture; development and implementation of information technology for architectural purposes and the awarding of grants - in acknowledgement of architects who have developed significant buildings or demonstrated other achievements of high quality.

The Foundation is a natural extension of Henning Larsen's interest in promoting and disseminating architecture - in parallel to his work as an architect and his professorship at the Royal Academy of Fine Arts, School of Architecture. This interest is also reflected in the establishment of the SKALA architectural gallery and SKALA architecture magazine in the eighties.

The Board consists of:

Professor, architect Henning Larsen (Chairman)  
CEO, architect Kent Martinussen, Danish Architecture Centre  
Architect Troels Troelsen  
MA Lone Backe  
Lawyer Carsten Malby

## FORMER AWARD WINNERS

---

### 2011

Journalist Henrik Sten Møller
